## Animal Adaptations

**Directions:** After playing the vertebrate vs. invertebrate game select **one** of the animals from the lab. Then complete the questions on this worksheet according to the Collins Writing Rules. This means that you must use **complete sentences**, **appropriate capitalization** of letters, and the **avoidance** of the words: it, stuff, and they.

Animal: \_\_\_\_\_

1. Is your animal a vertebrate or an invertebrate and how do you know? (Hint: look at pages 452 - 453 of your text book!)

---

---

---

---

2. What are three relatives of this animal? (Hint: look at pages 452 - 453 of your text book!)

---

---

---

---

3. What are 2 adaptations you notice about your animal and how would these adaptations help your animal maintain homeostasis/help your animal survive?

---

---

---

---

---

---

---

---

4. If you had the ability to give your animal one very helpful adaptation to survive what would it be and how would it significantly help your animal?

---

---

---
