

The Entertaining Cell Play/Song

Each student or group will be required to create a song or play about the organelles we have learned about in class. The play or song must include all organelle we have learned about.

Each song/play must include each of the following organelles:

<ul style="list-style-type: none"> • Cell Wall (plant cell) • Cell Membrane • Nucleus • Nucleolus • Cytoplasm • E.R. • Golgi Bodies 	<ul style="list-style-type: none"> Ribosomes Mitochondria Vacuoles Lysosomes Nuclear Membrane Chloroplast (plant cell)
--	--

1. The play/song must include what job or jobs that organelle does for the cell.

2. Hold pictures of each organelle or have a costume that is similar in appears to that organelle (for play only). For song, make a picture collage where each organelle is labeled with the picture above it.

3. Make important references to where certain organelles are located (nucleus, E.R. cell membrane/ cell wall).

3. Make mention of the organelles ONLY in plant cells and those only in animal cells.

Task	Points Possible
Creatively Drawn cover with name	5
Mentions the organelles which are only in plant/animal cells.	5
Are all the organelles included?	10
Describe the function of each organelle correctly	10
Mentions the location of certain organelles which specific locations	10
Each organelle has a picture/costume to go along with it (play) or picture collage (song)	10
